

INVESTOR DNA REPORT

RICHARD SAMPLE

SUMMARY

This unique report was compiled by inputting the results of your cognitive and personality test into our AI and Machine Learning systems. It provides an 'at a glance' view of your trading style and offers insights and actions that could improve your outcomes.

YOUR SURVEY

Raw data from your answers to cognitive and personality questions results in a primary Investor Type of:

AI AND MACHINE LEARNING

The data is interpreted with financial behavioural research learnings. These suggest the following action:

YOUR PORTFOLIO ANALYSIS

Recommendations for your Investor Type:

DECISIVE AND STABLE

Your data suggests you are **MOST LIKELY** to take a measured and planned approach to investing. This can be a useful counterpoint to impulsive investment decisions.

ACTION POINT

Consider adding strategies that help you exploit unexpected opportunities in real time. Be careful not to do this in unfamiliar markets.
